GOOD ROAD CALL.

Gladys, Ky., Oct. 13, 1913. As our worthy Governor has designated October 24th and 25th as Good Roads Days throughout our Commonwealth, it should appeal forcibly to every citizen of our State who favors good roads. Much can be done by united efforts and I appeal to the people here to come out in force on the 24th and 25th inst, and help open up and repair the road from here to A. J. Webb's across the hill. There is not a place in the county where a wagon or driveway is more in need than here. During the winter season the road around by Dennis becomes almost impassable while this way there the officers on their trip to arrest would be neither water nor ice. We all need this road and let us see what we can do toward putting it in good repair. W. M. WRIGHT.

REV. SAM M. ROBINSON.

The many friends of Rev. Sam M. Robinson will be glad to know of his success in the Missouri conference. It isn't every man who can transfer from one conference to another and in four or five years mak enough friends to elect him to the General conference. Eight years ago conference from this conference. Three years from that time he trans ferred to the Missouri conference, serving Hannibal station one year and St. Joseph district four years. This year he is elected to the General conference from the Missouri conference and appointed to Plattsburg district, one of the strongest in the conference. It gives us great pleasure to know that our friend Sam is so highly regarded by his brethren of his adopted conference.-Methodist Layman's Her-

by local applications, as they cannoe reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

TAX LAWS IN KY.

Present Unsatisfactory Laws Responsible for Small Returns

Retard Development and Lower Standard of Integrity-Efforts To Secure a Better System of Taxation Has Been Persistent for Fifteen Years.

Frankfort, Ky .- (Special) -The efforts to secure a better system of taxation for Kentucky have been persistent for fifteen years but owing to the ironclad restrictions in the state constitution it is exceedingly difficult to secure any change.

Tax commissions have repeatedly been appointed by authority of the legislatures and these commissions have unanimously condemned the general property tax which was adopted by the last constitutional convention and as the law is constitutional it has been impossible for the legislature alone to repeal it.

However, the last general assembly undertook to amend the constitution as provided by law and this amendment will have to be ratified by the people at the November election and , if it fails to carry it cannot be voted on again for another five years.

The effect of the present law is to and to prevent other people and money from coming in and building up our

This is how the general property tax is regarded by outsiders as indicated in a report of a commission appointed in another state and it applies in all respects to our present

"The personal property tax is farce. It falls inevitably upon the comparatively few who are caught. The burden it imposes upon production is out of all proportion to the revenue it produces.

"Year after year state and local assessing boards have denounced it as impracticable in its workings and unjust in its results. These recommendations have for the most part passed unheeded or have led to ineffectual attempts to bolster up the law. It is time the situation was faced squarely, and the tax in its present form abolished.

"So far as the personal property tax attempts to reach intangible forms of wealth, its administration is so comical as to have become a byword.

"Such a method of collecting revenue would be a serious menace to democratic institutions were it not so generally recognized as a howling

"But it is not a farce to those who are fully assessed. These are chiefly caught when their property is listed merchants and others, incorporated or unincorporated, with stocks of goods, and the small investors who are not skillful enough to make non-taxable

The state referred to has changed its tax system and already the receipts from taxation have increased enormously and the peculiar effect of it has been to lower the taxes on lands and improvements by securing a greater revenue from personal property which had formerly produced little or no returns.

Kentucky must increase its revenues to keep up its schools and public institutions and it would be manifestly unfair to make the property at present paying taxes sustain this added burden, but under the present law there is no other recourse.

If the amendment carries and the legislature is empowered to classify property so as to bring under the assessor's scrutiny the vast amount of personal property now escaping taxation the revenues, can be increased and taxes on lands and houses diminished and what is more important than all we will be able to develop our re sources, maintain our population and attract capital and people who will help to build up the state.

Ohio has recently changed its tax laws and has already been benefited and Tennessee is about to renounce the general property tax. Other states have either long since abolished

it or are preparing to do so. The present system in Kentucky was popular when the country was young and wealth largely confined to real estate which could not be hidden.

Wealth is now largely in personal securities which the assessor can not locate and in consequence this class of property escapes almost entirely.

Can we afford to neglect this great question and yet hope to compete with neighboring states which are less favored than ours naturally but have the advantage of cheap money and low

If the amendment fails to carry the next census will show that Kentucky has moved down another peg or so in its standing among the states and those at present paying taxes will inevitably have to pay more on the same property while others will es-Kodaks and all kinds of supplies cape by hiding their personal property from the assessors.

GIRLS' SERVICE COATS

There isn't a garment in the wardrobe of such general utility as the Service Coat.

You've real need of its comfort more months in the year than any other coat. In late summer and early fall; in late winter and early spring; for motoring, roughing it, school wear-off and on, all the time.

That requires it to be a coat of exceptionally good value and well made—and of a model that is ideal in weight, in fabric, in pattern, in style-and in price.

These coats were made by Man-Tailors and embody all the goods points of a man's garment.

Gladly sent on approval, by parcel post to responsible parties.

PRESTONSBURG GETS TWO NEW BUILDINGS.

With the completion of the Harkins law office building and the Hop- of Kentucky vs. Garfield Wright kins commercial building, the city for the killing of Ireland Calhoun of Prestonsburg will have two of th most modern and commodious business blocks to be found in the Sandy Valley. The Harkins building will be found on Second street near his residence. It is to be built of stone, one story high, with a large basement. The building is now well under way, and contains many splendid features not found in any other building in the valley. The entire building will be occupied by Mr. Harkins and his son, and it will be finished about next June.

The Hopkins building is located on Court-st. near the Magnate theater. It is a two-story brick structure with a double compartment on the ground floor. The second floor will be occupied with offices. It is estimated that this building will be completed within 30 days.

An entertainment was given at the Magnate theater Tuesday evening for the benefit of little Grace Spencer, a crippled child. In this entertainment several children playmates of the little gilr took part, and a small admission fee was charged. With the proceeds an invarid chair was purchased for the little girl. The generous Mr. W. H. May, Commonwealth Attorney, was the promoter of the entertainment.

MONITOR CHANGES HANDS.

The Sandy Valley Monitor, which for several months was operated by Mr. Chrislip, is now under the editorial management of Mr. Henry Merritt, of Bonanza. The paper will be conducted on substantially the same policy, as formerly, and published the first edition under the new management this week.
